

The Markham Group of Artists was founded in 1981, and includes artists from beginners to professionals, working in a variety of media from acrylics to watercolours.

MGA is a dynamic group of artists who further their skills by sharing with other members, encouraging one another, promoting the arts in the community, exhibiting at different venues, attending monthly presentations or demonstrations and partaking in a variety of outstanding workshops with talented instructors.

Interested artists are invited to apply for membership. You do not have to be a resident of Markham to join the MGA. Membership is capped at 150 members, and workshop sizes are limited so that participants receive individual attention.
